Love working in 3D?

Graduating soon?

Looking for a job?

Dartmouth's Data Experiences and Visualizations Studio is hiring a Neukom/ITC XR Fellow to work on augmented and virtual reality research projects. If you are graduating before July 1, 2020 and want to build a portfolio of professional AR/VR work while getting time to explore your own creative ideas, we want to talk to you!

This one-year, full-time, paid position includes benefits, professional development, and access to a wide variety of cutting-edge DEV Studio equipment. Applications are due March 29, 2020 for first consideration.
